**Subject:** Requesting a Meeting with Governor Edmund G. Brown

Congratulations on all of your good work! I have requested via website and hard copy mail a meeting with Governor Edmund G. Brown to address the statewide expanding scope of the radiation eco-fraud at the Hunters Point Shipyard federal Superfund site, it's sister naval base at Treasure Island and the shipping of fraudulently cleared radiation contaminated soil and asphalt to an unauthorized landfill in Contra Costa County potentially impacting residents and their drinking water. I hope we are all focusing on the mushrooming statewide impact of what has been called by PEER as

"the biggest case of eco fraud in U.S. history." If the meeting is granted, and I sent supporting documents by mail that would make this matter compelling for a seated governor, we can work together to develop an agenda. I, as you all are aware, am most concerned about the need for heightened surveillance of health monitoring systems including the implementation of a statewide biomonitoring program for residents living within a one mile radius of the federal Superfund site at the Hunters Point Shipyard.
